

Explanation of model variants

MODEL VARIANTS

The **PLK/A1** model is an electromechanical padlock. PLK/A1 have *electronically* identical variants with difference in shackle and body material.

Following version codes are possible for model PLK/A1:

Version: PLK34**Y**/**ZZ**

PLK34	Mechanical basic type and size	
X	Body type	
YY	Shackle length (typically short is 25mm and long 50mm)	
Y	0	= Hardened steel, no raised shoulders
	1	= Brass, no raised shoulders
	2	= Hardened steel, raised shoulders
	<i>All body versions have hard chrome finish</i>	
ZZ	Shackle length in millimeters	

Electronics are always the same

Tested product
